OWNER DATA

Name _____

Address _____

Phone _____ Lic No. _____ State _____ Repair No. _____

Mileage _____ VIN _____ Interior GR BL Transmission AT MT

DATE _____ MECHANIC _____

Initial Observations and Modifications _____

ROAD TEST

Check speedo operation/trip reset _____

Check for suspension and drivetrain noises and/or tire vibrations _____ Front/Rear - Left/Right _____

Check operation of all instrumentation _____

Check vehicle performance _____

Check for squeaks and rattles _____

Check for electric cool fans and A/C _____

Check for brake pedal pulse _____

Check steering column bushing-rack play _____

Check transmission (1-2, 2-3 auto/1, 2, 3, 4, 5, R manual) _____

UNDERSIDE

Check engine for: oil leaks, timing cover oil seal, timing cover Oring, rear main seal _____

Check for original and leaks: oil filter, oil pressure switch, gauge, light _____

Check automatic transmission, shift cable and final drive for fluid leaks _____

Check catalyst heatshield, muffler heatshield _____

Check for 90 amp alternator _____

Check exhaust manifold gaskets _____

Check manual transmission for fluid leaks and linkage or bushing movement _____

Check engine/transmission (mounts and brackets) _____

Check steering suspension - check play/leaks, inspect steering column universal joints and rack boots _____

Check drive shafts/side seals - Inspect boots - Check play/leaks _____

Check brake circuit - check leaks, check condition of flexible hoses _____

Check brake pads/discs - check wear/condition _____

Brake disc minimum thickness - 11.7mm LF _____ RF _____ LR _____ RR _____

Brake calipers LF _____ RF _____ LR _____ RR _____

Add'l brake comments _____

UNDERSIDE (continued)

Master cylinder seals, pistons and servo unit _____

Check and grease ball joints _____ Check ball joint boots _____

Fuel lines - check condition leaks/accumulator lines _____

Clutch - check hydraulic circuit for leaks _____

Check for installation of stainless steel clutch line _____

Check front and rear ground connections _____

Check front and rear wheel bearings _____

Check front end recall performed _____ Check crumple tube _____

Check frame for rust and condition of tie-downs (front and rear) _____

Check trailing arm bolts _____ Check air deflector plates/hardware _____

Check shock absorbers _____

Check frame for any signs of collision damage _____

Check for seat belt anchor plugs (left/right) _____

Check radiator (original or replacement), shroud and undercarriage hoses _____

ENGINE COMPARTMENT

Check operation/condition of louvre, latch and struts _____

Check engine cover condition, latch and support _____

Check engine cover grilles, mounts, hinges and decals _____

Check driving belts and A/C belt idler bearings _____

Check valve covers for leaks/valvetrain noise _____

Cooling system - Pressure test, check leaks, water pump _____

Inspect hoses: left and right, main hose, configuration early/late _____

Check automatic transmission fluid level _____

Exhaust system - check leaks/chafing, inspect muffler, brackets and clamp _____

Fuel system - check leaks.chafing, perform fuel system pressure and rest test _____ primary _____ control _____

Air conditioning - check compressor _____

Check hose condition/leaks _____

Check refrigerant level _____

Accelerator Cable - check for full throttle opening _____

Check air filter _____ intake duct hoses _____ stove pipe _____ PVC hose _____

Check de-ice recall installation _____

Check header bottle (plastic/metal) _____

Check torque on rear body mounts _____ Check coil cover _____

Check engine compartment light and switch _____

Additional comments _____

WHEELS AND TIRES	Tires - Check pressure _____
	Check cuts/damage on inside/outside walls/dry rot _____
	Check tires comply to manufacturer's specifications _____
	Check wheel alignment _____
	Wheels - Check condition of wheels and powder coating _____
	Check for correct valve stems _____
	Check for condition of wheel emblem caps _____
	Check for condition of lug nuts _____

LUGGAGE COMPARTMENT	Check for improved latch spring _____ Check operation of trunk light and struts _____
	Check/top up brake and clutch reservoir _____
	Check condition of hood seal and carpet _____
	Check windshield washer reservoir level _____
	Check condition of windshield wiper blades _____
	Check torque on front body mounts _____
	Check tool kit for completeness _____ Jack/Handle _____
	Check spare tire condition and pressure _____
	Check for fuel pump update and condition of rubber boot and cover _____

Check flexible fuel lines _____ Check inspection cover/hardware _____	

ELECTRICAL AND INSIDE CAR	Check headlamps: main/dipped beam and flashers _____
	Check parking/side lamps operation _____
	Check reverse _____ rear number plate _____ stop lights operation _____
	Check indicators/hazard warning lights operation _____
	Check interior lights (front/rear) _____
	Check horns operation _____
	Check windshield wipers and washer operation _____
	Check electric windows operation and for new style regulators wipe seals (inner/outer) _____

	Check seat belts _____
	Check operation of hand brakes _____
	Check hood release cable for fraying at end _____
Clean all fuse contacts _____	
Check for relay update installation _____	

"Electrical and Inside Car" continued ⇨

ELECTRICAL AND INSIDE CAR (continued)

- Check electric mirror operation and condition of mirrors _____
- Check electric door lock operation and escutcheon condition _____
- Check mode control switch for operation and for vacuum leaks _____
- Check A/C control panel lights _____ Decal _____
- Check blower motor operation and for noises _____ Fan speed switch _____
- Check defrost switch _____ Lighter/illumination ring _____
- Check glove box latch _____ switch _____ light _____ torsion bar for lid _____
- Check operation of electric radio antenna _____
- Check pedal pads for wear _____
- Check brake and clutch pedal linkage pivot pins for wear _____
- Check clutch master cylinder for leaks _____
- Check for armrest extensions and protectors _____
- Check radio cassette operation and speakers _____
- Check battery type, size and condition _____
- _____
- _____

EXTERIOR

- Check front and rear fascia for paint damage/warpage _____
- Check inner door seals _____ weatherstripping _____ roof seals _____
- Check door sill seals _____
- Check operation of door locks early/late style _____
- Check operation of door struts _____
- Check operation of door lights _____
- Check condition and security of body moldings _____
- Check condition of headlights and exterior lenses and screws _____
- Check condition of rock screen _____ spoiler _____
- Check windshield _____ Dropping glass _____ Fixed glass _____
- Check condition of stainless body work _____
- _____
- _____

DE LOREAN MOTOR COMPANY

Service Recommendations

- 01010 Lube, Oil, Filter** **Recommended**
- 01003 7,500 Mile Service** **Recommended**
Underside: Drain and refill engine oil, replace oil filter. Inspect steering suspension, drive shafts, gearbox/sump/timing cover, front and rear shocks, brake circuit and flexible hoses, brake pads/discs, fuel lines, clutch, clutch line, ground connections, trailing arm bolts, front/rear wheel bearings.
Engine Compartment: Check drive belts, rocker cover. Check leaks and security of exhaust system. Check fuel system for leaks, chafing. Check air conditioning pipe condition/leaks, check idler bearings. Check for deice recall installation. Check header bottle.
Wheels and Tires: Check pressures, specifications and conditions of tires. Torque wheels nuts. Check/fill brake and clutch reservoirs.
Electrical/Inside car: Check headlamps, (main and dipped beam). Check operation of flashers, reverse lights, parking/side lights, license plate lights, stop lights, turn signal indicators, internal luggage and engine compartment lights, horns, windshield wipers and washer. Check condition/security of seat belts. Check operation of hand brake, hood/engine cover release (note condition of cable). Check mode control switch operation/vacuum leaks, blower motor operations/noises. Check condition of seats/soft trim, wear on pedal pads.
Exterior: Check front/rear fascias and stainless panels for damage. Check all door seals. Check operation of door, louvre, and hood struts.
Luggage Compartment: Check condition of hood seal, and washer fluid reservoir level. Check spare tire condition and pressure.
Road Test: Check operation of all instrumentation, vehicle performance, squeaks/rattles, and operation of electric cooling fans.
- 01004 15,000 Mile Service** **Recommended**
Underside: 7,500 Mile Service actions and: Drain/refill automatic transmission fluid. Drain/refill manual transmission oil. Check condition of brake servo filter. Grease ball joints.
Engine Compartment: 7,500 Mile Service actions and: Drain and refill cooling system. Check accelerator cable, lubricate linkages. Check initial timing and vacuum advance. Check torque on rear body mount bolts.
Luggage Compartment: 7,500 Mile Service actions and: Check torque on front body mount bolts.
- 01006 30,000 Mile Service (Manual)** **Recommended**
Underside: 15,000 Mile Service actions and: Tighten sump bolts. Check ground connections. Replace fuel filter and oxygen sensor.
Engine Compartment: 15,000 Mile Service actions and: Adjust rocker arm clearance if necessary. Check engine CO and HC levels, adjusting if necessary. Check/replace as necessary: Oxygen sensor, coil wire, belts, distributor cap/rotor, plugs, plug wires.
Wheels and Tires: 15,000 Mile Service actions and: Check wheel alignment.
Electrical/Inside car: 15,000 Mile Service actions and: Check fuse contacts. Check brake/clutch pedal linkage pivot pins for wear. Reset service interval counter. Check battery tie-down.
Luggage Compartment: 15,000 Mile Service actions and: Check fuel pump installation. Check tool kit/jack for completeness.
- 01009 30,000 Mile Service (Automatic)** **Recommended**
Same as 01006 except: Service automatic transmission. Check/adjust governor cable. Replace transmission filter.
- 13102 - Flush/Fill/Bleed Cooling System** **Recommended**
- 63008 - Flush/Fill/Bleed Brake Fluid** **Recommended**
- 72001 - Service Air Conditioning** **Recommended**
